Compliance status

This website is partially compliant with the [Web Content Accessibility Guidelines version 2.1](#) AA standard, due to

Non-accessible content

The content listed below is non-accessible for the following reasons.

Non-compliance with the accessibility regulations

Disproportionate burden

We have reviewed the usage of the website which is less than 1500 individual visits in a calendar year this being equivalent to one visit per head of electorate for the parish. We've assessed the cost of fixing the issues with navigation and accessing information, and with interactive tools and transactions. We believe that doing so now would be a [disproportionate burden](#) within the meaning of the accessibility regulations.

Content that's not within the scope of the accessibility regulations

PDFs and other documents

Some of our PDFs and Word documents are essential to providing information. For example, we have PDFs of minutes and agendas, and forms published as Word documents. By September 2020, we plan to either fix these or replace them with accessible HTML pages.

The accessibility regulations [do not require us to fix PDFs or other documents published before 23 September 2018](#) if they're not essential to providing services.

Any new PDFs or Word documents we publish will meet accessibility standards.

Live video

We do not plan to add captions to live video streams because live video is [exempt from meeting the accessibility regulations](#).

What we're doing to improve accessibility

The accessibility of the website will be reviewed on an annual basis and when new legislation is published. We will also use any feedback from users to inform how we display information on the website.

Preparation of this accessibility statement

This statement was prepared on 3rd September 2020. It was last reviewed on 3rd September 2020.

This front page of the website was last tested on 13th August 2020. The test was carried out by the clerk using Microsoft Accessibility Tool as recommended in the NALC (2020) '*Website Accessibility requirements*' paper.

We used this approach to deciding on a sample of pages to test and opted to test the main front page of the site as an indicative of the accessibility of the whole site.
